

# Village Design Statement

This Village Design Statement (VDS) is Supplementary Planning Guidance adopted by Peterborough City Council on 22nd August 2003. It was conceived, researched, collated, written and published as a community project.

## **What is the Wansford Village Design Statement?**

Our Village Design Statement has been researched and written by members of the local community and describes Wansford as it is today, underscoring the many qualities and characteristics of the village most valued by its residents. All households in Wansford were invited, indeed encouraged, to participate so that essential local knowledge, views and ideas would form the very essence of this VDS.

The objective of the VDS is to ensure that future changes and development in the village are viewed in the light of this carefully considered understanding of Wansford's past history and the present-day situation, formed by a consensus of those best qualified to form such an opinion – Wansford residents.

It therefore offers a significant and positive contribution towards the future evolution of the village to enhance and protect Wansford's distinct character and heritage within a clearly defined, 21<sup>st</sup> century, context.

The Wansford Village Design Statement was adopted by Peterborough City Council as Supplementary Planning Guidance on 22, August 2003.
